minutes

**the rescue of persons
can be shortened with SAFETY-e**

More safety for drivers, families and friends

SAFETY-e is stuck in the driver's side window and protects not only the drivers, but also their families and friends.

More safety for drivers, families and friends

Through 7-9 eye contacts per day, your advertising, as well as the emergency lane is always present.

SAFETY-e - Possible uses and benefits

How can SAFETY-e be used internally and externally?

internally:

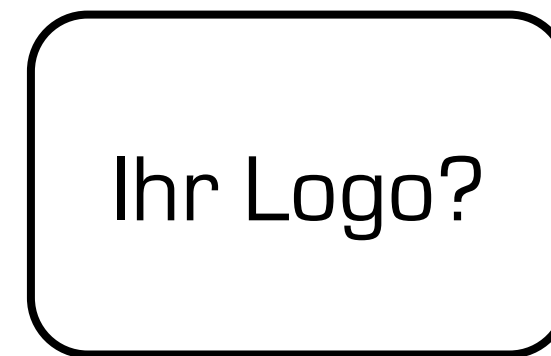

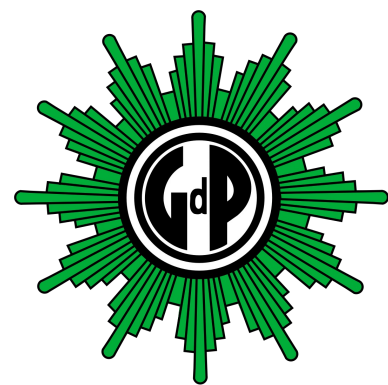

- Equipment of the own company car fleet
 - Gift for employees
- ⇒ Faster rescue on official and private ways
- ⇒ Increase of safety at work
- ⇒ Strengthening of the employer brand
- ⇒ no personal data necessary!

externally:

- Give-away at trade fairs / customer gift
 - Connection with own products (bundling)
 - Support of the vision in own network
- ⇒ high advertising effect through daily presence in the vehicle
- ⇒ Strengthening of customer loyalty

SAFETY-e - Excited partners and customers

Customers and partners who live safety with SAFETY-e!
