

# Volla Messages

User Manual

Volla Systems July 2026

The logo for Volla Systems, featuring the word "volla" in a lowercase, cursive script, followed by a long, wavy horizontal line.

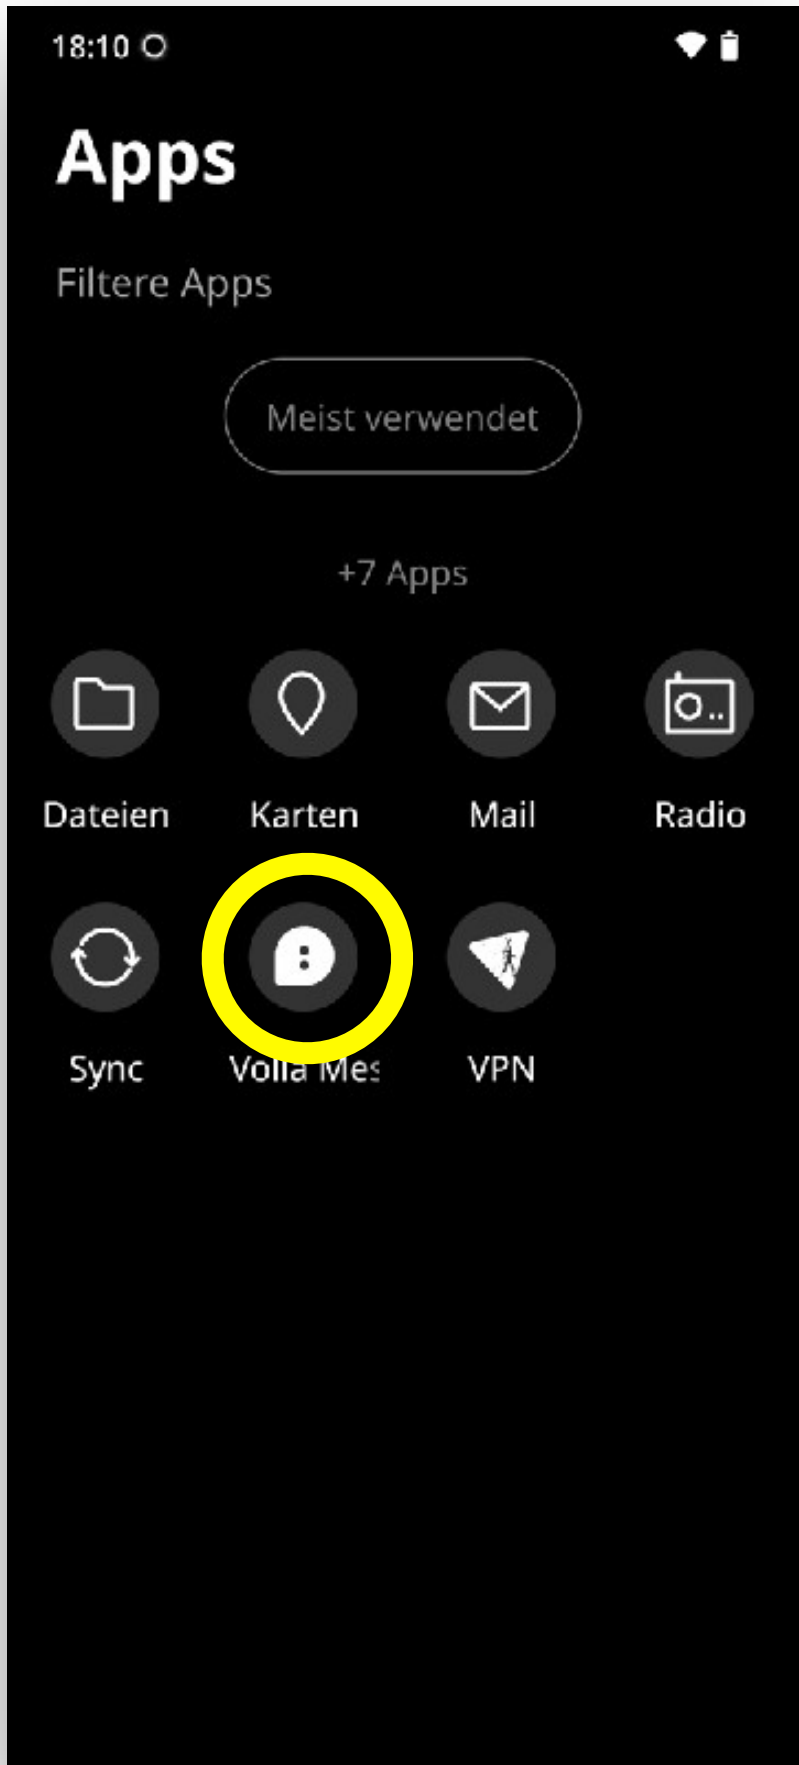

- **Volla Messages** enables secure communication that is encrypted and takes place directly between connected contacts without a data center.
- Verified contacts are established through the exchange of cryptographic keys.
- You can create private groups with verified contacts and open groups using an invitation code.

volla

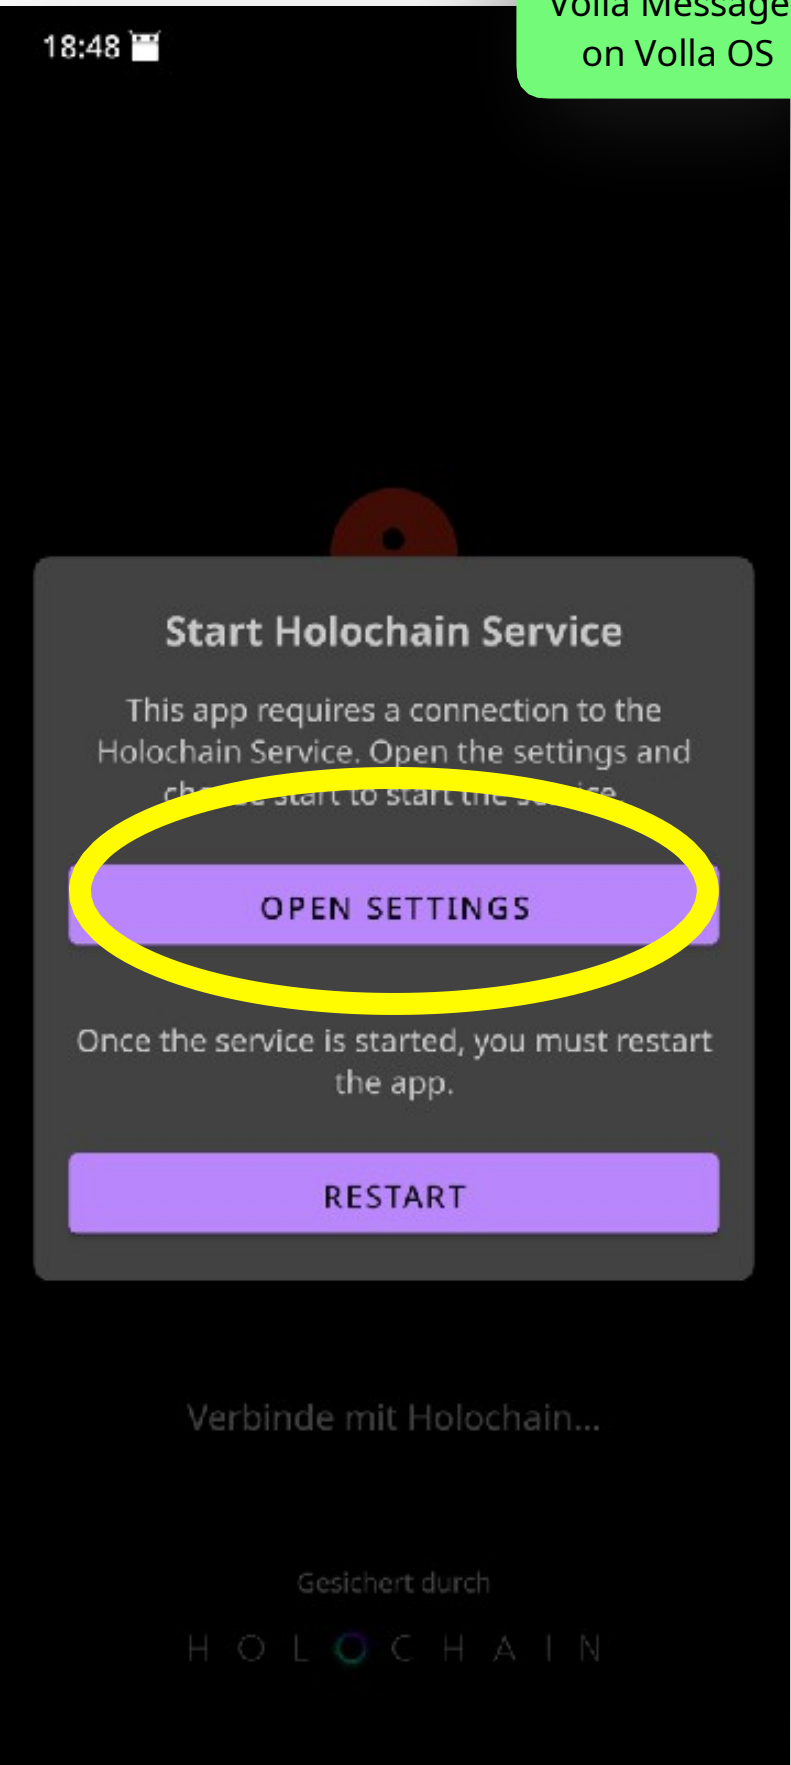

# Initial Setup

vollan

Open the app

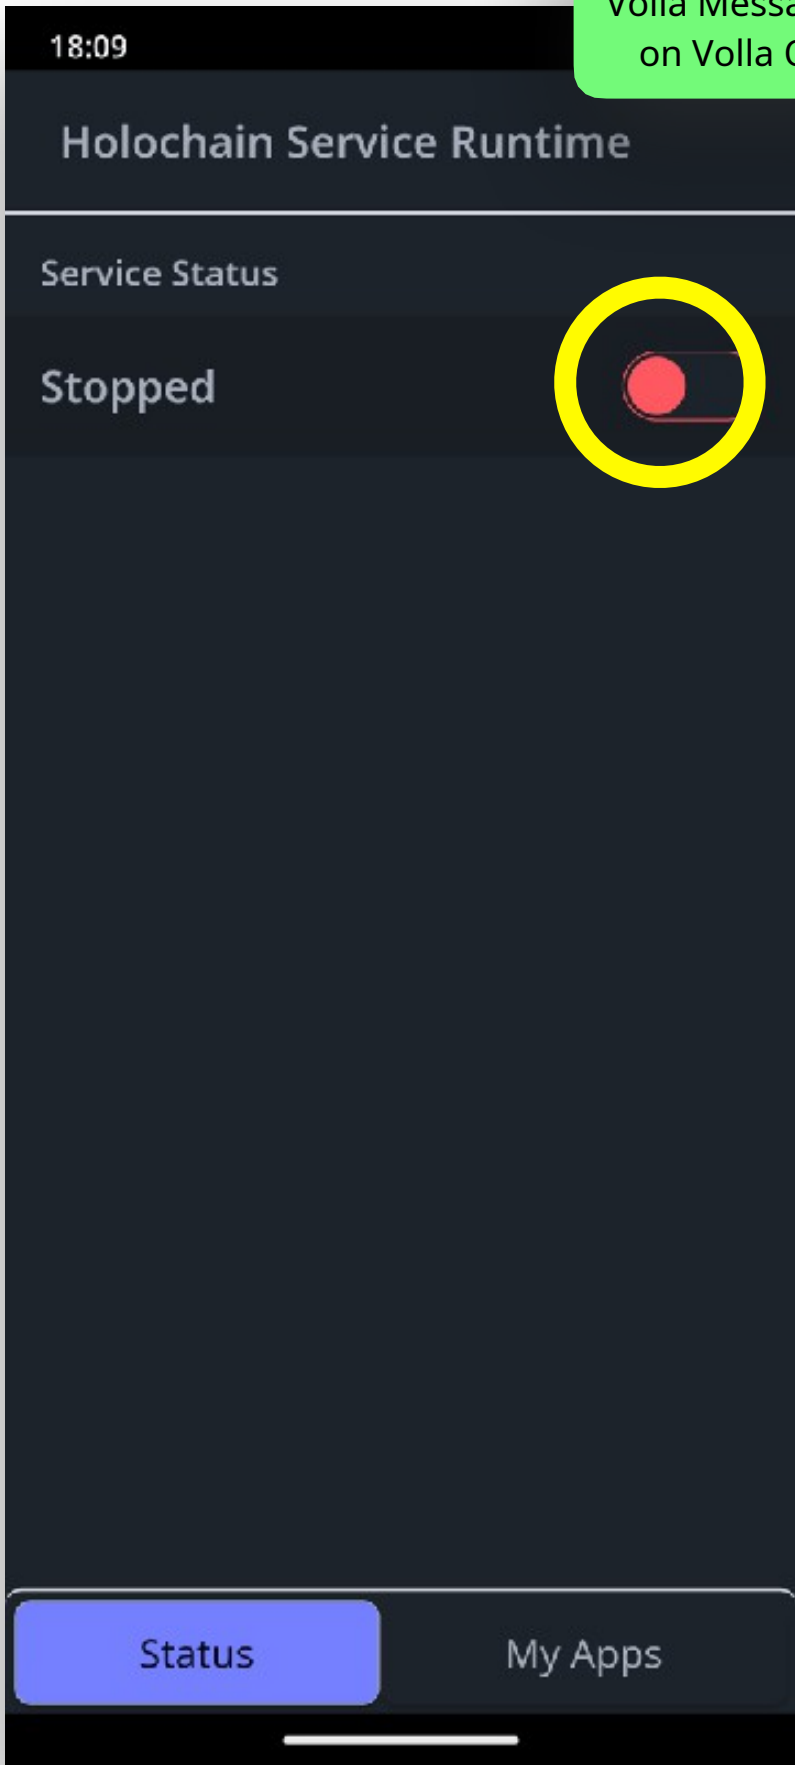

Open the system settings for Volla Cloud

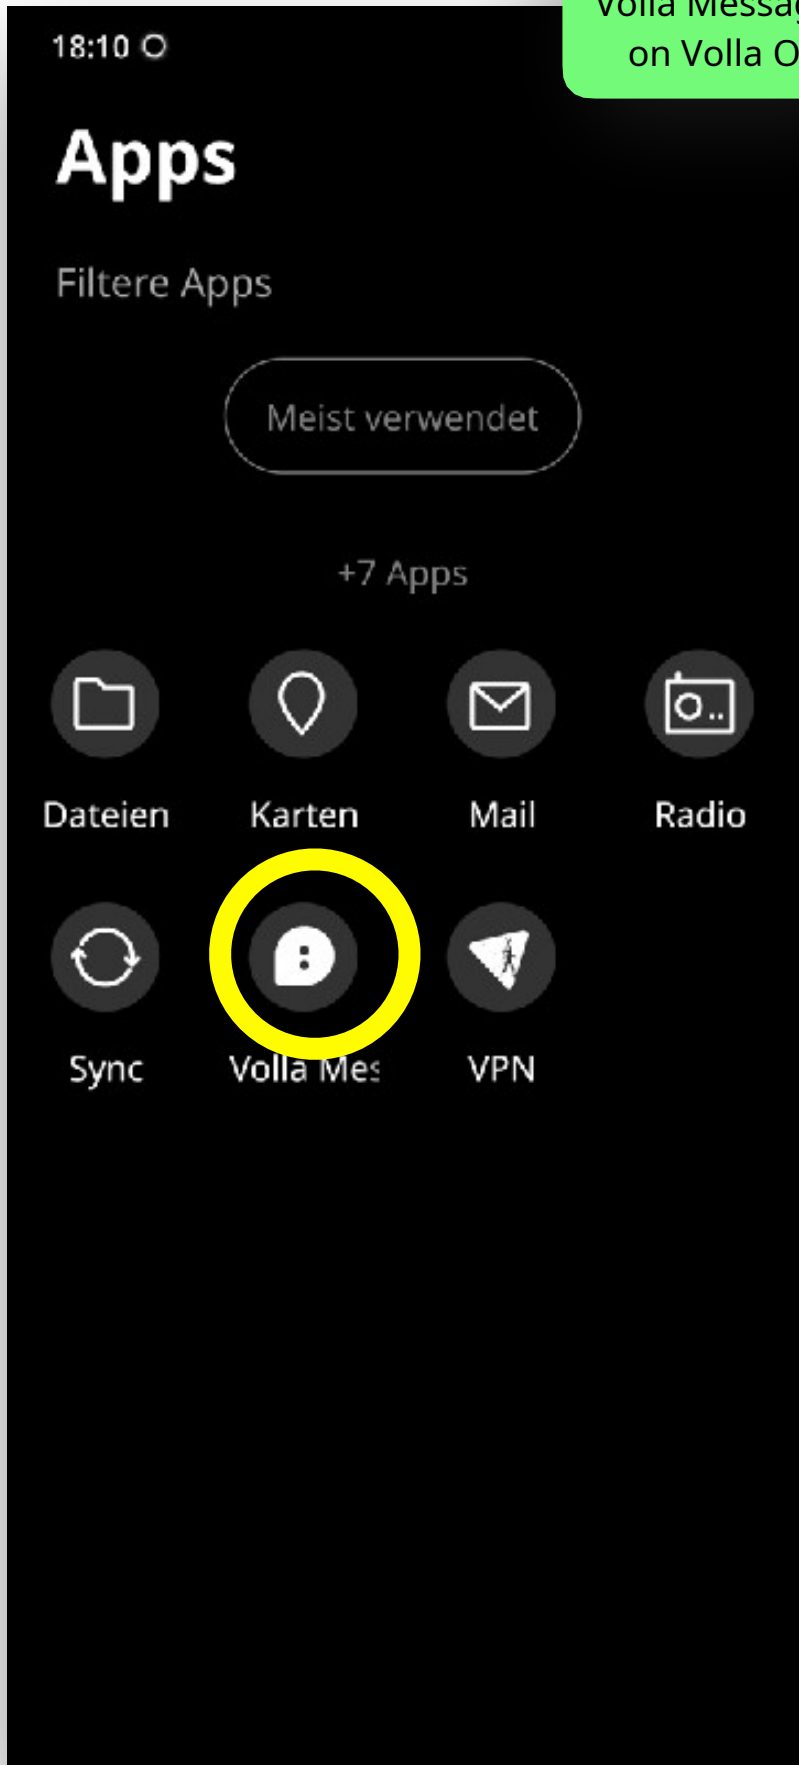

Applies only to Volla Messages on Volla OS
